

**8th SCIENTIFIC SEMINAR FOR STUDENTS, GRADUATE STUDENTS,
AND YOUNG SCIENTISTS**

«APPLIED ASPECTS OF ELECTROCHEMICAL ANALYSIS»

Lviv, Ukraine | October 12-14, 2022

Dear colleagues!

You are cordially invited to participate in the **8th Scientific Seminar for Students, Graduate Students, and Young Scientists "Applied Aspects of Electrochemical Analysis"**, which will be held at the Faculty of Chemistry of Ivan Franko National University of Lviv.

Seminar dates
October 12-14, 2022

Form of participation:

- *oral presentation* (report with the slideshow);
- *poster* (poster in pdf format, which will be published for the discussion on the seminar page);
- *without presentation* (only publication of the abstract in the book of abstracts)

A lecture by a leading scientist on electrochemical methods of analysis is planned during the seminar.

Web page of the seminar

<https://chem.lnu.edu.ua/research/conferences>

Topics of the seminar:

- the use of electrochemical methods for the analysis of environmental objects, biological substrates, and food products, in pharmaceutical chemistry;
- development of chemical and biochemical sensors, and their usage in analysis;
- the use of electrochemical methods for the study of reaction mechanisms, surface properties, etc.

All participants will receive a certificate of participation, and the best works (according to the voting results) will be awarded with diplomas.

Conference languages: **Ukrainian and English**

We are sincerely grateful for the spreading of the information among interested people, and young scientists working on the specified topics.
